

Simple web

Content of the Task-www-index.html file:

```
<html>  
  <head>  
    <meta http-equiv="refresh" WWW-Authenticate="--[----->+<]>---.[--->+<]>+++.--[->+++<]>.++++.+++++.+++++.++.------+.+++++.--." sop="WWW-Authenticate in esoteric programming language" content="1;url=https://www.cyberthon.lt/">  
  </head>  
  <body>  
    <h1>Redirecting in 1 seconds...</h1>  
  </body>  
</html>
```

here we can see brainfuck language inside the double quotes

after executing it in any online compiler we get

cyberthon

flag:

VU{cyberthon}
